

## SUBJECT: PRODUCT UPDATE APF POLYASPARTIC 7500

EFFECTIVE DATE: October 11, 2019

ICP Arizona Polymers is pleased to announce a significant formulation change and product improvement to **POLYASPARTIC 7500 & 7500 LOW VOC**

APF Polymer Surfaces is pleased to announce a formulation change and product improvement to the Polyaspartic 7500 product line. Change to the formulation was made to:

- Lower viscosity, which in turn allows the product to apply easily and evenly
- Improved overall uniformity in applied, cured product.
- Cures crystal clear with no signs of CO<sub>2</sub> entrapment.
- Now available in **Low Odor** and **Satin** versions (part numbers to follow next page).

All production from this date is the new formulation.

**INVENTORY:** Existing inventory in good condition and within the shelf life indicated on the label, may continue to be sold and used.

Please advise your customer service personnel to inform purchasers of this change at the time of purchase. Contractors, please advise your field personnel immediately.

Polyaspartic 7500 is a two-component, high-solids, aliphatic polyaspartic coating system. This unique resin chemistry has the desirable properties of polyester-polyurethane materials yet has a faster cure time and fewer film thickness limitations. It was developed as a high-performance coating for various protective coatings and seamless flooring applications.

**COMBINING PRODUCT:** Combining old and new generation formulas on individual projects is NOT recommended. Use either all older generation material or new. **DO NOT MIX OLD AND NEW VERSION PRODUCT.**

**LOOK & FEEL:** Your customers, contractors, and applicators will notice a positive change in appearance, workability, and performance of the product. Your customers may continue to have the utmost confidence in the ultimate performance of the product.

Coverage, yield and consumption rates are not changed with the improved formula. Application techniques and methods remain unchanged.

Your customers may continue to have the utmost confidence in the ultimate performance of the product.

**PRODUCT DATA SHEETS:** Updated Product Data Sheets can be found by visiting [www.apfepoxy.com](http://www.apfepoxy.com).

**SAFETY DATA SHEETS:** Updated Safety Data Sheets can be found by visiting [www.apfepoxy.com](http://www.apfepoxy.com).

**LABELS:** All new production will have the addition of the part numbers listed on the front panel of each label. Do not inventory old and new material together.

See new component SKU's on next page.
